

One stop shop for all your office requirements

Company profile

OfficeStar
GROUP LIMITED

Coleford based Office Supplies company 'OfficeStar' can now offer 'Next Day' delivery to any address within the UK mainland. The streamlined ordering and packing service enables business to order printer and office supplies up to 5pm ready for delivery to your doorstep the very next working day.

"Having the flexibility to deliver any one of over 16,000 products ranging from Printers, Cleaning Suppliers, to Furniture or Copier paper allows your business the opportunity to deal with a local supplier as a 'One stop shop' for all your office requirements" commented Sally Harrison

Roger James explained that the company is based on the principle that 'Time is Money', and when it comes to office or printer supplies a company can be literally crippled through not having it's printer cartridges delivered on time to produce invoices and delivery notes, not to mention the down time spent by employees who are the largest cost within any business.

They are also passionate about service and customer care, like all businesses they sometimes get it wrong!, but they give it 110% to rectify any issue a customer may have. "It's not what you say, it's what you do, and it's at times like that you know how good your supplier really is"

If you want to talk about 'price', OfficeStar will talk 'price', but

they would rather talk about 'cost', the 'real cost' of purchasing a product and the time people can spend ordering (or running out of) office supplies & stationery. They are a specialist in their industry, and you are probably a specialist in yours, so let them take cost out of your business and allow you to focus on your business priorities. Having been in business for over

35 years, and survived three recessions we must be doing something right" commented Roger.

As well as servicing larger accounts OfficeStar also cater for Schools and the 'Home Office' by offering an extensive range of products through the local web shop www.officestar-group.com , and since the recession they

have noticed a real trend in local businesses wanting to buy locally again.

OfficeStar are a local company employing local people. With the majority of office products now being transacted by companies with French or American ownership, officestar are proud to be part of the local community"
